## Smith Gruppe News

### Smith Gruppe Launches The Reverse Pitch Platform

Our Vision is to establish an unprecedented platform that is open access for qualified innovators that enables communities, industry and the world to realize their creative abilities and to become more effective at solving the world's problems. We envision an era driven by interdisciplinary innovation derived from the synergy between the dynamics of innovation and collaboration.

The platform is designed to connect innovators to funding in order to elevate the level of research in order to disseminate solutions on a broader scale.

The “REVERSE PITCH” bridges the “Gap” between corporate, private and government sectors and true innovation.

### **Reverse Pitch = Innovation + Funding**

If there is Innovation but no Funding then (Innovation = 0); or Funding but no “Reverse Pitch” then the Problem is Unknown (Solutions = 0).

Please visit our website at [www.TheReversePitch.com](http://www.TheReversePitch.com) or click on the logo noted below.

### **2016 Reverse Pitch Energy Summit**

On behalf of Smith Gruppe, I invite you to attend the inaugural Reverse Pitch Energy Summit. Smith Gruppe is partnering with Duke Energy and the NSBE (National Society Of Black Engineers) SIG (Special Interest Group) to positively impact our environment by participating in and contributing to the 2016 Energy Venture Summit as hosted by Duke Energy, Inc.

Smith Gruppe in launching TheReversePitch.com platform desires to bridge the gap between industry innovation and technology transfer by accelerating the process of innovation in the fields of science, technology, engineering and math (STEM).

The Reverse Pitch Platform is a national and international platform that transcends multiple market segments such as Aerospace, Energy, Bio-Technology, Pharmaceutical, Bio-Medicine, Engineering and many others.

On a quarterly basis across the United States, The Reverse Pitch platform will deliver to the marketplace government and private sector industry presentations as they present their challenges to innovators and private capital market participants. The goal is to form industry partnerships as a result of bringing innovators and funders into the same room of thought leadership in order to solve industry and world problems. The following entities are participating in the inaugural Energy Summit:
